

Headaches

Neck Pain

Back Pain / Sciatica

Any of those symptoms sound familiar? Did you know that experiencing those aches and pains among many others, aren't a normal part of life? Maybe it's time to get your spine checked and see a chiropractor about it.

What do chiropractors do?

- Specialise in the spine and the nervous system.
- Correct any misalignments of the spine and pelvis that could disrupt the communication process between your brain and the rest of your body which may result in symptoms like, headaches, back pain, neck pain, sciatica, and many more.

What do we do and what's our focus at *Corebalance Chiropractic*?

- We use a unique approach of chiropractic to get you feeling, moving, and most importantly functioning at your optimum with a focus on **posture correction**.
- Our aim is to get you out of your pain and discomfort and get you back to living life at your full potential and doing the things you love, pain-free.

Have you noticed your posture isn't that great and would like to address it?

Or maybe you feel good and are just curious what benefit chiropractic care could do for you?

If you answered yes to any of the above, then it's time to get your spine checked.

Give us a call on **0467 971 727** to book in for your initial consultation.

We look forward to meeting you and starting your journey to optimal health.
